

Modal Dialog Example based on Bootstrap 4

Modal Dialog Example based on Bootstrap 4 is super easy as long as you understand the concept.

```
<script>
function updateTags()
{
    alert("Update completed!");
}
</script>
<button type="button" class="btn btn-primary btn-sm" data-bs-toggle="modal" data-bs-target="#tagModal">
    Update Tags
</button>
<div class="modal fade" id="tagModal" tabindex="-1" aria-labelledby="tagModalLabel" aria-hidden="true">
    <div class="modal-dialog">
        <div class="modal-content">
            <div class="modal-header">
                <h5 class="modal-title" id="tagModalLabel">Update Tags</h5>
                <button type="button" class="btn-close" data-bs-dismiss="modal" aria-label="
Close"></button>
            </div>
            <div class="modal-body">
                <textarea class="ignore-tinymce" id="new_tags" cols="80" rows="8" style="width:
100%;">{$myPost['post_tags']}</textarea>
            </div>
            <div class="modal-footer">
                <button type="button" class="btn btn-secondary" data-bs-dismiss="modal">Close<
/b>button>
                <button type="button" class="btn btn-primary" onClick="javascript:updateTags();"
>Save changes</button>
            </div>
        </div>
    </div>
</div>
```
