

Integrate Jira and Confluence together

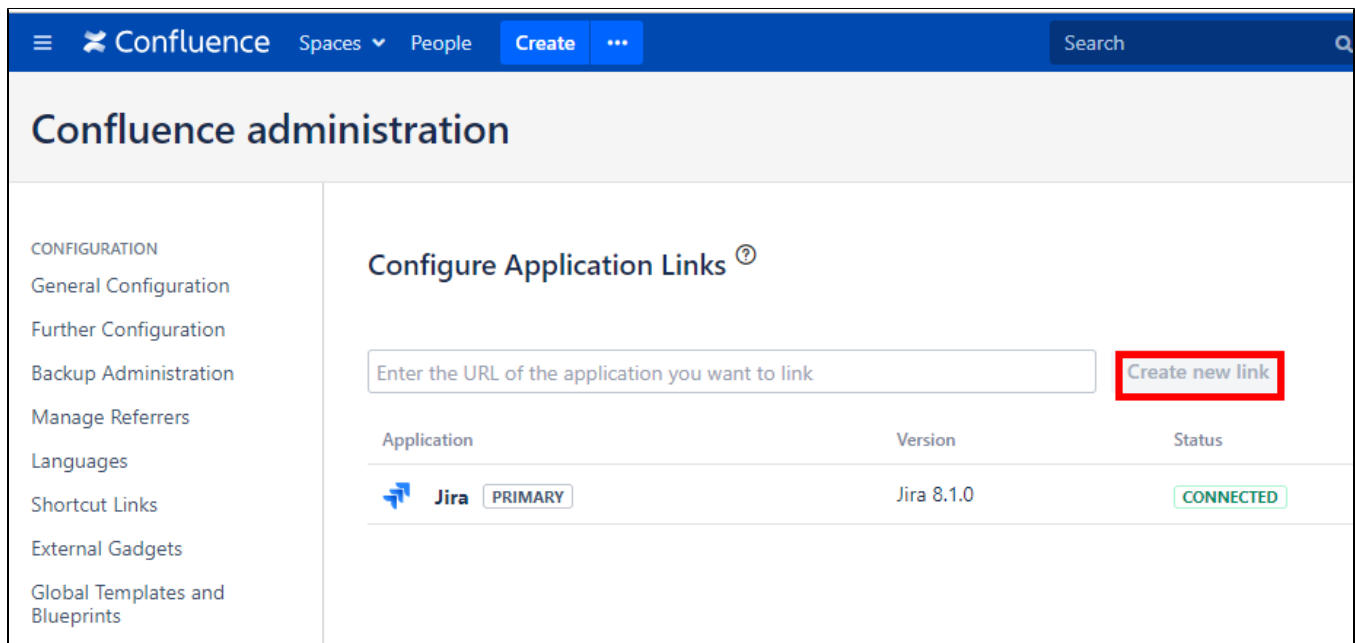

Jira project chart like Kanban can be easily embedded on Confluence, Please take a look following steps.

STEP1. You will need to setup Application Link at Confluence: <Jira base url>/plugins/servlet/applinks/listApplicationLinks

The menu is actually located at "Administration" like below

And the actual screen will be like below

STEP2. You will need to put your Jira server URL. Once everything is okay, you will see its status as **CONNECTED**.

STEP3. You will need to setup Application Link at Jira: <Confluence base url>/plugins/servlet/applinks/listApplicationLinks

Administration

Search Jira admin
